

Guy Anderson, Municipal Councillor  
**Policy Chair: Economic Development and Tourism  
Council Liaison to the PREDC Board**

Guy Anderson, as a lifelong resident of Kincardine, brings a wealth of knowledge about entrepreneurship, the local economy, agriculture and municipal governance to his role with the PREDC Board of Directors. Mr. Anderson's entrepreneurial nature led him to become a licensed carpenter and residential contractor. After six years, Guy moved onto become the owner/operator of a restaurant and later, the owner/operator of a local sporting goods store.

Following a successful career as an entrepreneur, Guy turned his talents to serving the municipality. Mr. Anderson became the Chief Building Official of the Municipality of Kincardine for a 20-year period. In that role, Guy administered the federal Residential Rehabilitation Assistance Program (RRAP) and the provincial Ontario Rehabilitation Assistance Program (OHRP).

Guy's career led him to become more involved with decision-making activities of the Municipality. Mr. Anderson served for ten years as a Municipal Councillor. During that time he became a member of the municipality's Economic Development Committee and served for a 13 year period. Guy also chaired the newly formed and presently thriving Grey/Bruce Culinary Association.

Following his time in local government, Guy brought his entrepreneurial skills to bee-keeping. He successfully turned around a 35 beehive hobby into a flourishing 1200 beehive commercial operation. Guy's common sense approach, knowledge of business development and entrepreneurship brings a balanced perspective to economic development and is a welcomed contribution to the Penetangore Regional Economic Development Corporation.
